Through the arts, the Diversity is Beauty Project is an effort to remind us of and celebrate the diversity of humanity in the face of growing intolerance, nativism, discrimination and anti-immigration sentiment. Our hope is that such powerful imagery will help heal wounds and inspire unity. The project develops, encourages and supports art that conveys a positive and inspirational image of diversity through its beauty, strength, simultaneously celebrating humanity's differences and its unity.

Again, our sincere thanks for promoting the importance and beauty of diversity.
